

RELOCATABLE
STRUCTURES

HIGH QUALITY TEMPORARY SPACE SOLUTIONS FOR EDUCATION

Bespoke modular buildings and walkways
for short or long term hire

SHOWPLACE
RELOCATABLE STRUCTURES

Clients have been trusting our team at Showplace Ltd to design and build emergency or planned temporary modular structures, for over 30 years. Offering a turnkey solution to schools, colleges, universities and an array of other educational settings, Showplace provides a fully project managed, all-inclusive service, which will enable you to confidently leave your additional space requirements in our capable hands.

TEMPORARY MODULAR STRUCTURES

Providing temporary, relocatable modular buildings to both the independent and state education sectors, we understand that a spacious, attractively designed classroom provides the necessary environment to promote effective learning and development, whether it's for young children, people with SEND, or for university students and adult learners. Our modular classrooms, as a short or long-term solution, ensure your students benefit from learning in a modern educational and teaching environment.

Whether you need an extra classroom, or additional office, exercise or dining space, Showplace will design and install bespoke space solutions, which are developed in accordance with your specific requirements. We will provide a comprehensive service, whether your need is for space as an extension of current facilities for a limited time, or if temporary structures are needed while permanent buildings are under construction or refurbishment.

Quick to erect, with rental available at short notice, there is no minimum hire period for our structures. We pride ourselves on our flexibility and speed of delivery, with structures available for hire for any duration, from one day up to two years. We also provide a detailed project plan, ensuring that agreed work is completed to the highest quality, and to the agreed timescales and budget.

TEMPORARY COVERED WALKWAYS

Showplace Ltd installs temporary covered walkways to the education sector, which are flexible in length and configuration. They provide a secure, weatherproof link between school and university buildings and can be built on hard and softer ground. Complete with solid or glass walling, insulation and heating options, as well as a wide range of flooring choices, the versatility of our modular covered walkways enables us to fulfil our customers' bespoke requirements across a range of terrains.

Ideal for extra common room space

Perfect for classrooms or staff rooms

THE BENEFITS

At Showplace, we pride ourselves on our unique offering within the temporary building market. Our high quality multi-use products and bespoke services have many benefits, including:

CONSTRUCTION/INSTALLATION

- Rapid deployment on hard ground e.g. concrete carparks, or on grass and turfed areas.
- Perfect for awkward or smaller spaces and built-up areas which can be difficult to reach.
- Reduced build time from as little as one day, minimising disruption to staff and students.
- In-house foundation pad system suitable for all terrains. Removes the need to dig into ground and therefore reduces project costs.
- Cranes are not required for installation. Reduces costs, risks and time.

FLEXIBILITY

- No lengthy rental contracts – hire from one day up to two years.
- A wide range of configurations are achievable.
- A choice of roof, wall, and flooring options.

FACILITIES

- Extra space achieved quickly and efficiently, reducing disruption for staff, employees, students etc.
- Installed with heating and electricity, perfect for year-round use.
- Provide a safe, warm, hygienic, enclosed weatherproof facility.

COMPLETE PROJECT MANAGEMENT

- Manage entire project from initial enquiry through to completion.
- Work with architects and ensure compliancy to relevant legislation.
- Arrange grounds work and landscaping.
- Manage the connection of utility services.
- Produce all graphics and internal décor.

THE SOLUTIONS

Showplace Ltd's temporary modular structures are perfect for a variety of educational space solutions, including:

- ✓ Classrooms
- ✓ Learning support space
- ✓ Common rooms
- ✓ Dining halls
- ✓ Offices
- ✓ Staff rooms
- ✓ Graduation/celebratory space
- ✓ Exercise and gym rooms
- ✓ Emergency response units
- ✓ Temporary covered walkways

Whether you are looking to install a 'one-off' temporary building for a short period of time, or whether you need to create a longer-term additional space, our flexible modular structures are available in many sizes and a multitude of configurations, including 5x5m, 6x6m and 12x12m. The unique and versatile design of our structures enables them to

link together to provide an almost unlimited range of layouts, shapes, and sizes for a wide range of uses. We can also install internal walling to create multiple rooms, areas, and corridors within your temporary space. Showplace offers a bespoke space solution, which can be customised to meet your needs, at short notice.

Whether you are planning your infrastructural developments for a new academic year, have short term needs for holiday periods, or have emergency or short-notice term-time requirements, please contact our team to find out how we can assist you.
