

# CASE STUDY: AIM UP

Creating unique space and event solutions

[www.showplace.co.uk](http://www.showplace.co.uk)

## CLIENT

Aim Up is a Gloucestershire based charity that supports adults with disabilities, complex needs and mental health conditions. Their mission is to help people live the life they want, through supported living, outreach support and community projects.

## PROJECT

Aim Up Activity Centre

## GOAL

To create a new activity centre to act as a central hub to bring people together in a safe, welcoming environment.

## SOLUTION

Showplace utilised our Moda temporary structure system to bring Aim Up's activity hub visions to life. Collaborating with external partners, Kingspan and Cupa Pizarras, insulation was added to ensure year-round performance and slate tiles were applied to the exterior to complement the regency surroundings of Cheltenham.

Aim Up added specialist equipment to the interior to create an interactive and positive atmosphere to support it's members, as well as a selection of plants and greenery to provide a tranquil space for everyone to enjoy.

## RESULTS

### 1. SUCCESSFUL INSTALLATION

The Showplace team were praised for the seamless installation of the permanent space solution, ensuring the structure was ready to host an array of activities in time for the grand opening.

### 2. POSITIVE FEEDBACK

Aim Up were extremely positive, stating that our structure created a landmark space to support the community and exceeded all expectations.
